>Roadwork on Baytowne Ave. West continues to progress with temporary lane closures necessary. Please use caution in this area as you may experience delays in this area due to the change in traffic patterns.

>Roadwork in Golfview and L'Atrium is continuing to chug along a little slower than we anticipated. We have experienced several delays as a result of numerous unidentified underground utilities. These utilities have created conflict with the install of the new drainage system. The contractors and the SOA are working diligently to expedite the completion of this project. Your patience is appreciated during this time of improvement.
