SOA Weekly Update

- Irrigation Update – the Club Drive pump station should be back on by the end of next week. The SOA will be running a diesel pump to move approximately 200-300 gpm of water from the Del Mar lake over to the Club Drive pump station. Del Mar lake levels should not be affected by this as there is a well by Genoa that pumps 300 gpm into it. The diesel pump will run 24 hours at and idle in order to minimize noise. We appreciate your patience during this time and hope to see more rain to help offset the lack of irrigation.
- The October Board of Directors meeting will be held on Thursday, October 16<sup>th</sup> in the SOA Conference Room. The agenda will be posted on our website no later than Tuesday morning.
- The SOA office now has a supply of Walton County blue recycle bags. Please feel free to stop by during business hours (Monday-Friday, 8-5) and pick some up.
