

Hurricane Isaias Update 10/8 11:30 a.m

The Walton County Board of County Commissioners has issued a mandatory evacuation for Zones A, B, and C, which encompasses the Sandestin community. Further information and updates can be found at the Walton County Emergency Management Facebook page:

<https://www.facebook.com/WaltonCountyEM/>

Due to this mandatory evacuation, the SOA has put the following measures in place:

- The SOA Administration office will closed today at 11:30 a.m. and reopen Monday, Oct. 12 at 8 a.m., weather permitting.
- **There will be no trash services Friday, Oct. 9 and Saturday, Oct 10. Please do not place trash on the curb for collection. Services are expected to resume on Sunday, Oct. 11, weather conditions permitting.**
- The Audubon Pool will be closed thru Saturday. If conditions allow, it will reopen on Sunday; however, pool furniture may not be available. (Phil Hummel will remain closed while repairs are underway.)
- Construction access and work will not be permitted Friday or Saturday. Regular access hours will resume Monday, Oct. 12.
- Essential Personnel will be on site for storm management purposes. Note, Security will not be responding to calls when weather conditions deteriorate and until the storm passes.

SOA staff is not able to provide property checks during or after the storm. For specific information regarding any impact to your home or neighborhood, please contact your Association Manager. Their contact information is available on the SOA website, [Neighborhood Association Management](#) page.

Note, these measures are subject to change based on the track and intensity of the storm changing. Any change in SOA services, road closures, etc. due to inclement weather will be communicated as they become available. If you haven't signed up to receive text messages from the SOA, please do so today. [Click here](#) to learn how.

Obviously, operational management of storms is a difficult task; however, these decisions take all known factors into consideration, and we feel it's in the best interest of the Association. As always, we hope we over plan for something like this, but until the storm arrives, it is unknown. **These measures are being taken in the abundance of caution, and we appreciate your patience, cooperation and understanding.**

As a reminder, please remain up to date regarding changing conditions and be sure you obtain the information from a reliable source. Walton County Emergency Management will communicate any impacts to our area via their Facebook page <https://www.facebook.com/WaltonCountyEM/> or visit any of the sites below for tropical weather updates. *Note, a Facebook log in is not required to view the Walton County page.*
